About This Content

A18: Storm's Wake

A fifth edition compatible adventure for six 10th- or 11th-level characters, five 12th-level characters, or four 13th-level characters.

For centuries, the dragon Storm has 'peacefully' lived off the eastern coast of the Klavek Kingdom, sinking or collecting any ship that ventured into her territory and eating sailors and sea-creatures alike. Now, however, she has moved inland and invited a host of problems, devastating trade and nearly blasting the city of Cherr's Landing from the map. The PCs have to save the city, and re-open trade along the Klavek Kingdom's eastern coast, or the mysterious forces gathering in the background will only gain more of an upper hand!

Also included in Storm's Wake:

- A new template for Titanic creatures, larger and more powerful than any of their kind
- A new type of dragon, the Swampscale, whose dragon eggs can be captured in this adventure and trained
- Two new magic items, the fleetmaster's compass, and the spade of excavation

-
- A new deity, Perenna, the god of spring and vanity
 - Maps and Illustrations by 3x ENnie Award winning Cartographer Todd Gamble
